

Is This How You Want To Sleep?

Being a snorer or having sleep apnea does not
mean you have to sleep like this!

The SUAD™ Device is a dental sleep appliance
developed by Leamington dentist, Patrick Strong DD,
to effectively treat snoring and obstructive sleep apnea.

Meet Patrick at the Better Living Expo being held at the
Windsor Expo Centre (1508 Walker Rd.) on October 23rd-25th.

Patrick will be on site all weekend answering
your snoring, sleep apnea, and SUAD™ questions!

We look forward to seeing you there!

The SUAD™ Device
